Roll Out Basics

Roll outs are simply shelves that pull out from within the cabinet. By extending outward it allows greater visibility and ease of use. A basic roll out can be a simple shelf. A specialty roll out can be made to keep virtually anything organized and easy to get to.

HYS roll outs are built to last.

They feature quality dove-tail construction capable of holding up to 100 pounds. They operate smoothly with ball bearing, full extension slides.

Recipe for Organization

- Capable of holding 100 pounds
- Quality dove-tailed construction
- Ball bearing, full extension slides
- Custom fit to each location
- Professionally measured and installed
- Height adjustable

How We Transform Spaces

1. We start by meeting with you in your home to see your space and learn about your storage needs. Together we formulate a plan to best meet your needs.
2. We professionally measure the cabinets where roll outs will be installed.
3. Then back in the shop we construct custom roll outs just for you. Each one built to maximize the space you already have in your home.
4. Once the roll outs are ready we arrange a time convenient for you and we return to install the roll outs. **There is minimal mess and no downtime for your kitchen.**
5. Fall in love with your space and how it works for you.

Why Our Roll Outs

Help Your Shelves is owned and operated by Joe and Dory Otto. Joe is a second generation wood worker. He takes the craft seriously and is happiest when in the wood shop “making sawdust.” Dory joined the company to ensure everything ran smoothly and now has some serious wood working skills herself. She enjoys working with customers and bringing their visions to life.

In addition to building high quality roll outs they build strong relationships. They prioritize communication. Knowing they can't possibly help to solve your problems if they don't first listen. Rest assured that you will be heard and informed throughout the process.

Transforming Lives By Transforming Homes.

Those words are more than a tagline. Joe and Dory have witnessed the transformation people experience when their home works for them. They fall in love with their home and that's a beautiful thing.

“Thank you again for all of your good causes you to stand out from among values and standards of ethical business, us, your clients.”

work, the way you treated us in the process with such honesty and dignity and for the gift of appreciation. It all the crowd of cabinetry people because not all of them take the time to embrace and practice such old world less practices. But you do and that makes all the difference. We so appreciate your approach to your work and to

Tom and Brenda M.

Roll Outs For Your Kitchen

The kitchen is often the heart of the home. It needs to perform several jobs effectively. Organization is key. If your kitchen isn't working well for you roll outs can be an affordable solution. Roll outs maximize your existing space. In doing so, your kitchen will function better!

Roll outs can be used in any cabinet or pantry. They can be used to organize:

Food

Utensils

Baking sheets

Garbage and recycling containers

Cookware

Anything else you can think of!

Junk Drawers

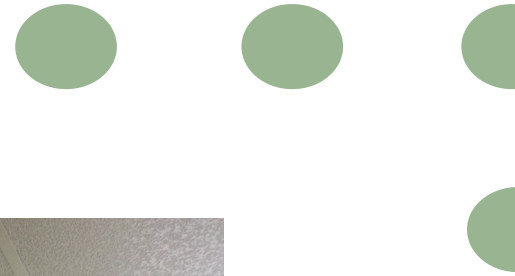

Turns out you many not need a
new kitchen.

Just some roll outs!

Specialty Roll Outs

As if roll outs weren't great enough, we can crate specialty roll outs to accommodate a variety of items.

- Can Manager keeps cans rolled forward and in a line
- Sliding Silverware Trays double the storage of one drawer
- Lid Manager keeps lids easy to get
- Corner Roll Out makes the most of otherwise wasted space

<<< Roll outs are our obsession. We too love coffee completely and

d.

The purchase of roll outs is a lasting investment in your quality of life. At Help Your Shelves we love helping people transform both their spaces and their lives.

We look forward to meeting you!

d.

“I am giddy with excitement. The gliding shelves are installed, they are fantastic. I have captured so much lost space.”

Nancy B.

Contact

To get started on transforming your space contact Dory. Together we will arrange a convenient time to meet at your home to discuss your specific needs and professionally measure your space. Once the roll outs are built to the exact specifications we will return to install them.
